BEFORE MOVE-IN: ASSIGNMENTS

• New students received their housing assignments in late June. These assignments take into account their roommate and room type preferences.

• We highly encourage students to begin having conversations with their roommates / suitemates about what shared items they will bring to campus.

• The room change process will begin on September 1st; students will apply using an online form.
BEFORE MOVE-IN: TIME SLOTS

• 25% of our on-campus population will move-in during each move-in day for their class. **Students should not make travel arrangements until they confirm their move-in time slot.**

• For each 30-minute arrival timeframe there will be several time slots available between 8 a.m. and 4:30 p.m. on each move-in day.

• Roommates will not be able to select the same time slot to ensure that two students are not moving into the same room at the same time.
BEFORE MOVE-IN: TIME SLOTS

• Students will have the ability to cancel and re-select their time slot until July 31 however, new time slots will not be created. Availability will be limited for students who cancel and re-select a new time slot.

• Room changes will begin in September. Students who pursue an emergent room change before the official room change process begins will need to wait to select their move-in time slot until their room assignment is finalized. We highly recommend waiting to pursue a room change until the official room change process begins.
ARRIVAL CENTER

• Once students have selected their time slot, they should book their travel to arrive at the Arrival Center 48 hours before their time slot begins.

• The Arrival Center will be at a central location downtown where all students will be tested for COVID-19 before they proceed to campus to move-in.

• More information will be announced about the Arrival Center and the associated hotel soon.
